The invention relates to a device for placing bets immediately and up to a short time before the drawing of winning numbers for lotto and other authorised games of chance, using the telephone. To the telephone exchange (3) of the National Telephone Network is attached at least one answering apparatus (8) for giving the telephone subscriber wishing to participate in the game instructions relating to the game, as well as a central computer (4) for recording the telephone number of the telephone subscriber, digits or other chosen symbols with which a bet is placed, and the amount to be billed to the telephone subscriber.
